

Initial Health History Form.

This is handed out from the health office throughout the school year if health staff requires more information (i.e. students who have developmental delays or impairments or other major medical conditions/problems)

Emergency Health Authorization Form.

This form serves as consent for emergency treatment and services as well as health/vision/hearing screenings. It **MUST** be completed for all students (at least once) and updated as necessary. This form is necessary for every registered student in BSD. It should be completed only once in the Bobcat lifetime and could follow them from one site to the next. (NOTE: As demographics and contact information are updated throughout their time in our schools, this form will be updated by health staff.) This form is kept in a binder in the health office and will be used for emergency purposes while the student is on campus as well as in the event that we are displaced due to some form of evacuation (fire, violence, etc.) It is the **ONLY** form (in addition to emergency medications) that will be taken from the Health Office should we have to evacuate campus.

Annual Health History Form (2 sided).

This form is *also required* and must be completed for all students and updated annually at the beginning of the school year. This form assists health staff in monitoring chronic illnesses or other conditions that may arise each year. We are aware that there are a number of students whose health history does not change. It is, however, imperative that the health office have this form each school year in the event of an incident on campus. It has current healthcare provider information as well as any current medications, newly diagnosed conditions, etc.

Dental Examination Verification Form

Pursuant to NMAC 6.12.13.8 (Dental Examination Requirements and Exceptions for Initial Enrollment), students initially enrolling in a school district must provide evidence of a dental examination within the past year or request a waiver.

Participa! Dental Services Consent Form

Participa! Dental Services will be in district offering dental cleaning and screenings for all students. A signed consent form is required.

Important Additional Information

If your student has a chronic medical condition (i.e. diabetes, seizures, allergy, etc), takes daily medications, has a dietary issue or allergy, please see the health office at your student's school to obtain the required forms which will need to be signed by your primary healthcare provider. Over-the-counter medications must be brought into the health office in the original un-opened packaging and can only be administered with signed parent/guardian consent.
